## State Highway Workmen Battling To Keep Main Highways Free Of Drifts

Gusty winds from the west that began about 4 a.m. today were giving the State Highway Department an "awful battle" to keep north and south main highways open today.

All of the main highways have been kept open since the snow began late Wednesday night but clouds of snow driven by the strong winds kept drifts edging across main roads while secondary and rural roads were drifted shut in many parts of the county.

The snowfall that did not stop until about 4:30 o'clock this morning accumulated up to 13 inches in some parts of the county, the State Highway Department said.

**All Schools Closed**

Until the winds began this morning "about 75 per cent of the roads in the county" had been opened but as the winds continued with mounting strength, the number of usable roads dwindled.

Some schools in the county announced Friday evening they would not re-open today and this morning when State Highway Department reports came in, all of the other school districts followed suit. For some schools it is the fourth day lost to snowstorms this winter while all schools have been closed for at least three days.

With many of its 110 men engaged in snow removal work sticking to their jobs around the clock, the Highway Department added some men as relief operators today and hired two extra graders to help move the snow on the main highways.

It was the winter's heaviest snowfall here and it called off or postponed many meetings and other activities in addition to the schools.

Borough workmen were busy clearing snow in the center of town. Lincoln Square was cleared Thursday and Chambersburg St. by noon today.

**Somerset Hard Hit**

Somerset County, usually the hardest hit area in southwestern Pennsylvania, reported 15 to 20 inches of snow on the ground.

The State Highways Department said 50 per cent of the secondary roads and 80 per cent of the rural roads were closed. Most schools and plants also were closed.

Five inches of new snow fell in Bedford County overnight.

**30 Trucks Tied Up**

Snow drifts kept 6,000 pupils from classes in four Erie County schools. Parochial and city schools remained opened.

Some 30 tractor-trailers jackknifed on Route 20 at Walnut Hill Thursday night and tangled traffic for two hours. Roads in the area remain hazardous.

In Fayette County, drifts 12 feet high closed most mountain roads. With the exception of Uniontown city schools the rest of the educational institutions in the county were closed.

Winds reaching gusts of 35 miles

## BADLY HURT IN TRUCK CRASH

A. R. Arrington, Philadelphia, was injured Thursday morning at 11:40 o'clock and the car he was operating, owned by the Western Union Co. of Philadelphia, was demolished when the vehicle was in a collision with a tractor-trailer three miles north of York Springs on the Gettysburg-Harrisburg Rd.

State police here, who are conducting the investigation, said Arrington had been removed to a Harrisburg Hospital before their arrival on the scene and that full particulars of the crash will have to wait until they can interview Arrington at the hospital today.

Kenneth Lyle Hamblet, Lanham, Md., 37, driver of the Associated Transport truck involved in the collision, told police that Arrington was driven north and skidded into the path of the southbound truck.

Damage to the tractor-trailer was estimated at $500. Hamblet was uninjured. The Western Union car was towed to the Paul Wolf garage at York Springs. Wolf said today the vehicle, valued at about $2,000, was demolished.

## GLENN BREAM ESTATE FUND BEING HELD UP

Following a hearing this morning the Adams County court continued a temporary injunction prohibiting the estate of the late Glenn C. Bream from making any payment to William G. Bream until the court has determined how much of his inheritance should go for the support of his wife and children.

The injunction was granted in an equity action started Thursday by Mrs. Helen M. Bream, 248 Chambersburg St., against her husband, William G. Bream; against his mother, Elizabeth L. Bream, as executrix of the estate of his late father, Glenn C. Bream, and the Gettysburg National Bank as trustee under the will of Glenn C. Bream.

Mr. and Mrs. William Bream were married at Uniontown, Md., October 1952.

**AWOL From Army**

The couple have two children, Robert William and Barbara Helen Bream, and according to the complaint in equity filed by Attorney Donald M. Swope for Mrs. Bream, William Bream has not supported his wife or children since last August.

Bream went into the U. S. Army in January, 1959, and, according to the complaint, went AWOL from the Army in August, 1959. He had provided no support since and has visited his wife and children only a few times since that time and then only for a few hours at a time.

At the hearing in court this morning, Mrs. Bream said the last time her husband was home was at Christmas, 1959, and that at that time he brought a bicycle for his son and a doll for his daughter

## Digging Out Of The Snow

Assisted by a tractor (top), borough workmen bend into the task of removing snow from Lincoln Square, one of a number of areas which they cleared during and after the storm Thursday. Clean-up activity continued today.

Clearing deep snow from a N. Washington St. walkway (center) proved to be a challenge for this snow plow, one of a number pressed into service by the borough and Gettysburg College maintenance men.

This almost classic winter scene (bottom) was presented on N. Washington St. following the heaviest snowfall of the year Thursday. The foot bridge spans a stream on the Gettysburg College campus. (Times Photos)

**FACE CODE CHARGES**

Ten-day notices have been mailed by Justice of the Peace Anna E. Thompson to C. F. Flohr, 459 W. Middle St., and ames E. Crummitt, Gettysburg R. 3, on borough police charges of a stop sign violation and operating a motor vehicle without a license, respectively.

**PASTORS TO MEET**

The March meeting of the Adams County Ministerium will be held Monday morning at 10 o'clock at Flohr's Lutheran Church when the Rev. Robert A. MacAskill, local Presbyterian pastor, will speak on "The Pastor as Preacher."

## Times Delivers Edition Despite 9-Inch Snowfall

Fewer than 100 of the approximately 8,000 subscribers to The Gettysburg Times did not receive Thursday's edition following the nine-inch snowfall that blanketed most of the state. (This does not include those who receive The Times by rural mail delivery).

The Times carriers and the operators of the motor routes that snake throughout the county and into Maryland deliverying The Times to its subscribers completed practically all their routes. Only those subscribers in Virginia Milsl and those who reside along the road that extends from Knoxlyn to the Fairfield Rd. did not receive their papers. Times' cars and trucks were unable to penetrate the deep snow that blocked these areas.

The last driver returned to The Times office shortly after 6 o'clock after completing the longest motor route.

**Overcome Obstacles**

This seemingly almost impossible task was accomplished despite an additional obstacle. One of the automobiles developed motor trouble shortly before 2 o'clock and only through the assistance of an expert mechanic who did an emergency job was the car ready for use in time to join the delivery of the papers.

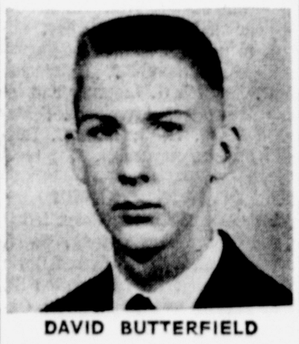

The Times regrets its inability to deliver its entire edition, but Mr. Snowman's "knockout punch" in two areas was too much for us.

The papers were delivered today.

Butterfield has been sent a "Certificate of Merit" stating he is one "who has demonstrated high potential for college achievement by a distinguished performance in the nationwide selection tests for merit scholarships in 1960."

**LEGION MEETS MONEY**

Mrs. Doris Gray, 39, Ontario, Canada, received treatment Thursday for a compound fracture of the right thumb suffered when a car door shut on her hand.

## TRUCK DRIVER MISSING; SOME OF CARGO GONE

Pennsylvania and Ohio authorities are continuing their search for Shane Perrine, about 32, Akron, Ohio, on a charge of fraudulent conversion.

According to borough police, an out-of-state tractor-trailer was reported parked on Chambersburg St. Satuday, February 20. Tuesday, February 23, the tractor-trailer was moved to the shopping center parking lot. Unable to locate the driver of the apparently disabled truck, police towed it behind the Acme Market.

Sunday, February 28, there was still no word from the driver or the owner. Police traced the owner though the Ohio license tag on the trailer. The tractor had been driven away before the tracing effort. The same day, Travelers' Motor Freight, Inc., Akron, Ohio, called police saying they were the owners of the cargo aboard the trailer, which consisted of manufactured plastic items. Motor Freight said the tractor-trailer was owned by Warden Waldron, Akon, Ohio.

**Some Cargo Missing**

Waldron was notified. Meanwhile, police located the missing tractor on Franklin St. but were unable to locate the driver, Perrine. The tractor and trailer were towed to a service station to await the arrival of the owners.

Mr. and Mrs. Warden Waldron arrived Monday, February, 29, conferred with police and verified that a quantity of the cargo was missing and alleged that Perrine had been disposing of it for personal profit. The tractor-trailer was returned to Ohio where a detailed account of missing merchandise will be prepared. Meanwhile, police have been unable to locate Perrine.

## Rev. Dr. Reginald W. Deitz Of Seminary Faculty Dies Suddenly In New York City

REV. DR. DEITZ

The Rev. Dr. Reginald W. Deitz, 45, 116 Hay St., history professor at the Gettysburg Lutheran Theological Seminary, died suddenly Thursday night while attending a play at the Longacre Theater.

He had been engaged by the Board of Higher Education of the United Lutheran Church in America to organize several pilot schools for in-service training for ministers and after completing his duties as a professor at the seminary here Wednesday had gone to New York for a conference on the matter at the ULCA headquarters.

Following the conference Thursday he had apparently decided to see a play before returning to the home of a brother, the Rev. Charles Deitz, in Massapequa, Long Island, and was stricken while at the theater.

**Pastor, Editor, Teacher**

An usherette at the play, "The Deadly Game," saw Dr. Deitz slump in his seat in the balcony. A doctor from Grand Central Hospital, called to the theater, pronounced him dead. Police found a round trip railroad ticket from Massapequa, Long Island, to New York City, in his pocket. He had made his brother's home his headquarters while he was in New York for the conference.

A native of Middleburg, N. Y., he was born in 1914, a son of the Rev. Raymond C. and Carrie E. (Whitteker) Desitz. He graduated from Hartwick College in 1935 and from the Gettysburg Lutheran Theological Seminary in 1938. He was ordained in 1938 by the New York Synod and became assistant pastor of the Luther Place Memorial Church at Washington, D. C. While serving as assistant pastor there he was a teaching fellow at the Gettysburg seminary from 1938 to 1940.

From 1940 to 1942 he was pastor of Christ Lutheran Church, Suffern, N. Y., and then was called to be an editor for the Parish and Church School Board of the United Lutheran Church in America. He served in Philadelphia as editor of "The Parish School" magazine and of the Christian Youth Hymnal.

**Directed Camp Nawakwa**

From 1949 to 1951 he was pastor of St. John's Lutheran Church, Columbia, and then, in 1951, became assistant professor of church history at the Gettysburg Lutheran Theological Seminary and assistant to the president of the seminary. He also served as director of Camp Nawakwa from 1950 to 1956.

In 1956 he was named Maryland Synod professor of Christian history and William Lincoln Glatfelter professor of church history at the local seminary, continuing in those posts until his death.

He was a member of the United Lutheran Church in America Board of Publications and served on a number of important committees of the church. At the present time he was a member of the "Commission on the Sacrament of the Altar."

**Two Sons Survive**

Among survivors are his wife, Mrs. Margaret Deitz, and two sons, Paul and Robert Deitz, at home. The family had remained here while he attended the conference in New York. Mrs. Deitz is a member of the faculty of the Gettysburg High School.

Dr. Deitz was a member of Christ Lutheran Church here and was vice president of the council of the church.

He and his wife, the former Margaret Pfeiffer, were married 21 years. In addition to his wife and sons, he is survived by his

## COURT FILES DECISION IN EQUITY ACTION

Another round in the equity action brought by LeRoy S. and Esther W. Apgar, Gettysburg R. D., against Fantasyland, Inc., ended today with the handing down by the Adams County court of a seven-page opinion, based on the preliminary objections of Fantasyland to the Apgars' amended complaint, which in effect opened the door to additional court action in the case.

The Apgars' complaint alleged violations of restrictions in the deed given by them when they sold the property to its present owners. Attorneys for Fantasyland claimed the equity action should be dismissed by the court because "the plaintiffs have an adequate remedy at law" in their contention that Fantasyland built part of its entrance driveway on Apgar's property. The attorneys said the Apgars should seek to remove Fantasyland from the 35-foot tract of land through an ejectment action.

**"Proper Forum"**

The court ruled that the Apgars not only claim the strip of land but also allege that the construction of the roadway to Fantasyland is a violation of the restrictions of the deed, and therefore "equity is the proper forum to enforce the terms of a restriction in a deed."

Fantasyland's contentions that part of the amended complaint be stricken were sustained by the court and "the plaintiffs are allowed 20 days in which to file an amended amended complaint."

The Apgars contend that when they sold the present Fantasyland property to its present owners they placed a number of restrictions on its use. "The portion of the land fronting on the Gettysburg-Taneytown Rd. for a depth of 209.88 feet shall be used for residential purposes only and no dwelling house shall be erected

**POSTPONE MEETING**

## Northeastern U.S. Staggered By Winter's Worst Storm; At Least 65 Deaths Reported

NEW YORK (AP) — Winter's most vicious storm—the worst in many years for some areas—piled up mountainous snowdrifts and staggered the activities of millions in the Northeastern states today.

As it swept through the Northeast with the same fury previously unleashed on much of the country, it left a trail of at least 65 deaths across the country.

Thousands of schools were closed. Hundreds of businesses were forced to shut down. Auto, bus, rail, and air travel was hit hard. Stalled cars, many buried under mounting drifts, dotted roads and highways and made snowplow work difficult.

**New York Hard Hit**

The storm began to let up around dawn today after a 24-hour siege in the New York City area, one of the hardest hit. New York got its worst walloping since 1948, when nearly 17 inches of snow fell in the third worst storm on record.

As of 7 a. m. today, the official measurement was 14.2 inches. Little more was expected.

But millions of New Yorkers, who went through a grim struggle to get home from work late Thursday, faced almost equal troubles trying to get back on the job today.

**Transportation Jam**

Crowds far greater than could be handled sought to board buses and subways. To add to the difficulties, parts of all three New York subways were out of operation during the morning rush hours.

Similar tribulations were experienced by both city and country people all over the Northeast.

In the New York metropolitan area, thousands who couldn't make it home spent the night in hotel rooms, when they could get them. Cots in Red Cross shelters and benches in crowded railroad stations also were used. Others dozed fitfully in their marooned cars.

The concert is part of the choir's annual spring tour which includes concerts in 12 cities in West Virginia, Virgnia, Maryland and Pennsylvania.

Springs Ave., a favorite sledding area, has been closed to traffic to permit sledding, Burgess Wilbur Plank announced today.

# SITDOWNS IN SOUTH GO ON; MORE THREATS

By THE ASSOCIATED PRESS

Southern Negroes, trying to break through racial barriers at public lunch counters, are continuing their sitdowns and demonstrations despite an increasing threat of arrest.

Approximately 200 Negro students from Allen University and Benedict College demonstrated Thursday after failing to get service at lunch counters in Columbia, S. C. Smaller groups turned out in St. Petersburg, Fla., and Norfolk, Va.

But the possibility of jail orr fines spread as officials cracked down with trespassing or similar charges. Florida Gov. Leroy Collins backed up peace officers in that state pointing out a 1957 law gives operators of eating establishments the right to refuse service to anyone they consider undesirable.

**Police Have Orders**

The city manager at Columbia said further demonstrations there will not be tolerated and police were instructed to take all necessary steps to forestall them.

In Nashville, Tenn., where 144 have been arrested and a Negro divinity student dismissed as the result of demonstrations, Mayor Ben West called for an end to the public displays as he appointed a biracial citizens committee to study the issues involved.

A walkout by 1,000 students at Alabama State College in Montgomery lasted only through morning as most of them were on hand for their final quarterly exams in the afternoon. They had promised to stay away to protest expulsion of nine student leaders who took part in a recent demonstration.

Virginia, which has new laws to prohibit trespassing, is watching the effects of boycotts launched against a number of stores in Richmond, Portsmouth and Suffolk.

thereon which shall cost less than $15,000 (1958 costs)."

**Alleged Violations**

The only exception was to be a 50-foot highway to be constructed from the Taneytown-Gettysburg Rd., along the line of the Raymond McPherson land at the south side of the property. The restriction also stated that all that portion of land along the front must be kept and maintained consistent with the restricted area except that the barn on the restricted area may be used for housing ponies which may be used on the unrestricted portion of the premises for commercial purposes.

The Apgars allege Fantasyland violated the provisions by constructing its present roadway along the north side of the property at the line of the Robert S. Plank land; that it placed utility poles on part of the restricted property in order to provide electricity to Fantasyland, that it erected commercial signs on portions of the restricted area, that it used a barn at the rear of a dwelling house as a warehouse and workshop for the storage or construction of exhibits for the commercial establishment of Fantasyland, that it graded and used approximately 25 feet of the edge of the restricted area for establishment of its parking lot for Fantasyland, and that the present roadway is partially on land owned by the plaintiffs, "being a 35-foot strip of land 300 feet deep next to the land of Robert Plank."

In their answer the Fantasyland attorneys held that the deed given to Fantasyland was to the land of Robert Plank.

## Going To Number Pike Interchanges

HARRISBURG (AP)—The Pennsylvania Turnpike's 38 interchanges will be numbered later this year, the Turnpike Commission said today.

Chairman Joseph J. Lawler said the plan should enable travelers to better follow the route and eliminate confusion in areas where new highways are being constructed.

The main east-west section of the toll road will be numbered one through 30, starting at the western end. The northeastern extension will be numbered 31 through 38, from south to north.

Lawler said the commission also expects to complete this year a program to replace the older interchange signs on the original turnpike with new green and white signs, as used on the newer extensions.

## Road Worker Is Snowstorm Victim

HARRISBURG (AP) — A State Highway Department employe was a snowstorm victim Thursday night while working with a crew cindering ice-coated roads at nearby Mechanicsburg.

Dr. Edward A. Haegele, Cumberland County coroner, identified the victim as Willis Stough, 63, of Franklintown, York County, who was dead on arrival at Harrisburg Hospital.

Haegele ordered an autopsy to determine if Stough was killed when he fell off a cindering truck or died of natural causes brought on by the exertion of cindering.

## Senate Record For Filibuster Broken

WASHINGTON (AP)—The Senate at 1:39 a.m. (Eastern Standard Time) today broke a record for practically continuous session held in an effort to choke off filibuster.

This record of 85 hours and 23 minutes was set in 1954 in an effort to wear down opponents of an atomic energy bill involving the question of pubilc vs private power. That continuous stretch was interrupted only by one 24-minute recess.

At 1:39 a.m. this morning the Senate had been in session for 85 hours and 24 minutes since Monday noon in the civil rights filibuster except for one 15-minute recess, taken Wednesday morning.

## Youth Gets Police Okay For Screaming

SANTA BARBARA, Calif. (AP) —Robert Canning, 19, has been given permission by the sheriff's office to practice screaming near a cemetery.

Canning asked to be allowed to scream "several times a day for 10 or 15 minutes at a time."

He said he hopes to get a role in a motion picture if his screams are satisfactory.

Deputy Sheriff James Webster said Thursday Canning was given permission on one condition. He must scream only during daylight hours.

**CAPTIVE BANDITS**

## SENATORS ARE TIRED BUT ARE STANDING FIRM

WASHINGTON (AP) — Senate backers of civil rights legislation found themselves blocked by their own differences today from any immediate attempt to crush the record-breaking Southern filibuster.

A checkup by party leaders showed many senators unwilling to vote for a filibuster-ending debate limitation unless they received assurances that whatever bill the Senate may finally enact will not include provisions unsatisfactory to them. For the moment, all factions were standing firm.

The whole fate of the legislation could be wrapped up in resolving this issue.

**Taking Toll**

Democratic Leader Lyndon B. Johnson of Texas seemed to think it could be done. He talked of a possible bipartisan move next week to limit debate.

At the same time, there were signs the non-stop session was exacting a heavy toll of energies from the civil rights supporters.

It took 37 minutes to round up a quorum when Sen. George A. Smathers (D-Fla) finished a speech of 3 hours and 55 minutes at 8:39 a.m.

**Jibes From Smathers**

The civil rights troops had been turned out at 4:06 a. m. for an earlier quorum call. They showed up tired looking, gray, some in bedroom slippers, many without neckties and shirts open.

Smathers gibed at their disheveled appearance.

Wasn't there some rule about suitable attire for senators? he asked.

Sen. Philip A. Hart (D-Mich), who was presiding, told him there wasn't.

## One Engine Fails, Switch Jets For Ike

By MARVIN L. ARROWSMITH

RAMEY AIR FORCE BASE, Puerto Rico (AP) — President Eisenhower, admittedly "bushed" from 12 days of touring, planned to break his weekend of rest today for another talk on Latin-American affairs.

Facing an audience that includes some critics of United States policy, the President may give a preliminary report on his goodwill mission to four South American nations.

Arriving here Thursday, Eisenhower was undisturbed by an engine mishap that put him almost two hours over wild Amazon jungles in a plane with one of its four jets out of action. The pilot said the President never was in any danger, and he switched in Dutch Surinam (Guiana) to another jet for the rest of the flight from Buenos Aires.

**Returns Sunday**

The President planned to fly by helicopter to address a luncheon of the Caribbean section of the American Assembly meeting at Dorado Beach, a resort owned by Laurence Rockefeller about 60 miles west of this Strategic Air Command base.

Eisenhower plans to return to Washington Sunday.

The 69-year-old President was looking forward to rest and relaxation on his arrival here after his interrupted 3,775-mile flight from Buenos Aires.

Coming down the ramp of his substitute airliner, Eisenhower was asked to say a few words for a Puerto Rican radio station but declined with a smile, saying:

"I am bushed."

Eisenhower was unaware during most of the flight over the trackless Brazilian jungle that an oil leak had forced a shutdown of one of the four engines of his plane after leaving Buenos Aires.

"The President never was in any sort of peril," Col. William G. Draper, pilot of the presidential plane, told newsmen later.

## State Highway

(Continued From Page 1)

an hour swept across Pennsylvania today causing treacherous and crippling drifts on the heels of the state's worst snowstorm in two years.

At least 12 deaths resulted from the storm which dumped from 7 to 30 inches of snow in a haphazard pattern.

All main traffic arteries in the state were open, but continual plowing and cindering was the order of the day to keep ahead of the drifts.

**Temperatures Low**

Many secondary roads were impassable, and rural roads in vast sectors were white blankets.

Continued sub-freezing temperatures offered little hope nature would help remove its handiwork.

There were at least five deaths resulting from the storm in western Pennsylvania, five in the east and two in the central section.

**Pike Traffic Slowed**

The highest recorded fall was 30 inches in Philipsburg. Other depths reported were 29 in Blairsville and 21 in Hazleton and Jim Thorpe, 17 in Bradford, 15.7 in Scranton, 14.2 in Allentown, 14 in Willow Grove and a foot in Pittsburgh.

Transportation was disrupted and many schools closed for the second successive day.

The speed limit along the 470-mile Pennsylvania Turnpike was cut from 60 to 35 miles per hour and it remained that way today. Officials urged all motorists to use chains or snow tries.

## GLENN BREAM

(Continued From Page 1)

as Christmas presents. He remained at home only about two hours and then left without saying where he might be located. Mrs. Bream said she has not heard from her husband since.

According to the complaint in equity, William Bream is scheduled to receive about $16,000 as a one-eighth share in the estate of his father, former owner of Gettysburg Motors, who was fatally hurt in an airplane accident Memorial Day, 1955.

**Amounts Not Determined**

The complaint held that William Bream was to receive $8,000 immediately and $8,000 more on December 16, 1961, when he reached the age of 26. However at the hearing this morning Attorney Eugene V. Bulleit, representing the defendants, said that no determination has been made of the actual amount due the younger Bream.

The court directed that advertisements be made for three times over a three-week period in an effort to reach young Bream after which a hearing will be held to determine what, if any, portion of the amount due him from the estate should go toward the maintenance of his wife and children.

Meantime the court continued an injunction on all parties prohibiting the executrix and trustee from paying out any of the moneys to Bream and prohibiting Bream from making any assignment of his inheritance. It had granted the temporary injunction originally Thursday afternoon upon the filing of the action.

# HOPE SPEARS MAY SOLVE BIG AIRLINER CRASH

DALLAS, Tex. (AP) — Jailed naturopath Robert V. Spears may yet help solve the mystery of a Nov. 16 airliner crash which plunged 42 persons to death in the Gulf of Mexico, his wife hinted Thursday night.

Federal agents have sought for weeks to determine whether a bomb was planted aboard the plane. Spears, 65, an ex-convict, carried $120,000 life insurance. He had admitted disappearing in hope his wife could collect it.

Mrs. Spears, 36, visited her husband in a Phoenix, Ariz., jail Thursday, after flying back to her Dallas home under FBI escort, she said of the crash probe:

"I think he could go a long way toward clearing it up—maybe not overnight but in time."

That was Mrs. Spears' reply in a radio interview after News Director Eddie Barker of station KRLD asked whether she thought her husband could shed some light on the unexplained crash.

**Answered Some Questions**

She told of talking with Spears about whether he might have put a bomb on the National Airlines-operated craft before it took off from Tampa, Fla., en route to Dallas. Spears did not answer all her questions, she said.

"There are some things he feels he has reason for holding back," Mrs. Spears added. "He gave me his reasons, and he has given them to others."

Mrs. Spears said after her husband's arrest that he told her an ex-prison buddy, William Allen Taylor of Tampa, used his ticket to board the departing plane. Until FBI agents arrested Spears Jan. 20 in Phoenix, he was listed among those dying in the crash.

Investigators found dynamite caps in Spears' luggage and dynamite cached near an Arizona desert cabin where he hid with a friend, the FBI has reported.

## Northeastern

(Continued From Page 1)

As breakfast time came, many restaurants were thronged.

Some places as far south as Pennsylvania measured 30 inches. Drifts four and five feet high were not uncommon.

The famous blizzard of 1888 dumped 21.9 inches of snow on New York. The worst recorded snowfall in the city, 25.8 inches, came in 1947.

**Howling Through New England**

The current storm was still howling through New England at midmorning. It was not expected to ease up there until late today. Maine anticipated as much as 15 inches of snow before the end.

New York City was one vast tangle of traffic and confusion as weary suburbanites tried to make their way back to offices.

**9 Deaths In Pa.**

In the city's environs and Nassau County and Queens 12 deaths were caused by heart attacks while shoveling snow or plodding through the drifts. In Suffolk County on Long Island a man slipped and fell to his death while trying to board a moving train at a railroad station.

Pennsylvania counted at least nine deaths as residents battled drifts up to 30 inches. In Maryland, weather-attributed deaths totaled at least five.

New York City was a scene of confusion Thursday. Education officials announced that public and parochial schools and municipal colleges would be closed today.

**Virginia's Hit Hard**

Virginia was blanketed by a 4- to-18-inch snowfall which was expected to last through the weekend. Most schools were shut down until Monday. Three deaths—one heart attack and two traffic fatalities—were attributed directly to the storm.

The mountains of West Virginia got as much as 20 inches of snow. Maryland got 12 inches in some areas. At Washington, D.C., sessons of five House committees had to be postponed because members or witnesses were snowbound away from the Capitol.

Airports at Washington, Philadelphia and New York practically gave up. At New York's Idlewild Airport more than 200 flights were canceled.

**Nearly Two Feet In N.J.**

The wind-driven storm blanketed Massachusetts, Rhode Island and southern Vermont and New Hampshire, with an expected 6-to-12 inch accumulation. Four persons died of heart attacks—all storm-attributed fatalities. As the storm hit Boston, Logan Airport was closed to all traffic.

The snow had reached depths of 12 inches in parts of Connecticut Thursday night.

Nearly two feet of snow plastered portions of New Jersey, making it one of the worst storms to hit the state in years.

New York City had a better outlook for public transportation today. Officials for the railroads, subways and buses said they expected facilities to be in fairly good shape.

## ROCKEFELLER READIES FIGHT

WASHINGTON (AP)—Gov. Nelson A. Rockefeller of New York is reported ready to turn to California, Pennsylvania and Texas for support of his campaign against reenactment of the 10 per cent federal telephone tax.

Rockefeller and Republican legislative leaders in New York want to pick up the tax at its scheduled expiration June 30 and make it available to school districts in the state to help solve critical revenue problems.

President Eisenhower, however, has asked Congress to reenact the tax for another year and has personally rejected Rockefeller's plan.

The governor's plan received a cool reception Wednesday at a dinner Rockefeller sponsored for New York congressmen.

Rockefeller said he didn't expect the delegation to agree to his plan but he apparently made some headway in his campaign against reenactment of the tax at the federal level.

## 'COPTER DROPS SUPPLIES TO NAVAJO TRIBE

WINDOW ROCK, Ariz. (AP)—A cigar-shaped air force helicopter with a Navajo Indian dangling below today signaled hope and help for hundreds of snowbound Indians on the sprawling Navajo Reservation.

The low-flying craft, loaded with relief supplies, was sent combing remote portions of the 16-million-acre reservation for families marooned by 56 inches of snow.

More than 70 families were known to have been cut off from normal sources of supplies. The snowbound areas are mostly in the northeast Arizona portion of the reservation, which sprawls into northwest New Mexico and southeast Utah.

"We expect them to stay there for at least three weeks," said John McPhee, administrative assistant to the Navajo tribal chairman.

The helicopter arrived from Kirtland Air Force Base at Albuquerque, N. M., a few hours after a transport from the base had dropped two packages of food to 14 families in the White Cone area north of Crystal.

McPhee said the helicopter would search out isolated hogans—log and mud huts in which the Navajos live. He said the helicopter cannot land in the deep snow and will have to hover over each hogan found. An Indian will scramble down a rope ladder, investigate the situation and climb back.

Needed supplies can then be dropped either from the 'copter later from the transport.

## FUSS ABOUT PETITIONS

Two nomination petitions were challenged Thursday in Commonwealth Court.

Norman G. Roof, also known as Andy Roof, Thomasville R. 1, York County, who seeks to be a candidate for congressman from the 19th Congressional District comprising York, Cumberland and Adams Counties, filed a petition asking the court to direct Secretary of the Commonwealth John S. Rice to accept his nomination petition.

The state election bureau refused to accept the petition because it lacks addresses of signers and contends there are blank spaces where occupations of signers were to be designated. Roof claims he has 228 qualified signers. The court has not set the time for the hearing. The petition was filed by William H. Naugle and P. T. Sullivan, counsel for Roof.

Harry B. Hause, Driftwood, Cameron County, filed a petition through his counsel, Charles E. Friedman to force Rice to accept his nomination petition for state Democratic committee member from the 26th Senatorial District.

Today is the final day for the court to hear complaints about nnomination petitions. Seven are listed in Dauphin County Common Pleas Court and the rest in Commonwealth Court.

## Russia Raps West German Base Plan

MOSCOW (AP) — The Soviet government protested to West Germany today any plan to establish supply and training bases in Spain.

The protest was contained in a note handed to West German Ambassador Hans Kroll by Deputy Foreign Minister Valerian Zorin.

Contents of the note were not immediately disclosed, but Moscow called attention to public reports that the Germans were negotiating with Spain for supply and training bases and suggested such activity would be a threat to peace.

Wolff, hospital surgeon, as the chief need at the institution in a talk Monday evening at the weekly dinner meeting of the Gettysburg Lions Club. A larger building, he said, would afford more space and more adequate facilities for the maternity department, allow a special section for the care of patients suffering from contagious diseases, relive the present over-taxed facilities for caring for medical patients, make possible special rooms for the study and treatment of kidney cases and bone fractures, and release space for establishment of a second operating room, which the surgeon said, is becoming more necessary as the volume of care administered by the hospital increases steadily.

## Today's Talk

**BE A SEEKER**

I recently came across an inspiring few lines by the late John Buchan. He was once governor-general of Canada, and a very great man. He said: "To be a seeker is to be of the best sect next to a finder, and such a one shall every faithful humble seeker be at the end."

Ralph Woods, author of "A Treasury of Inspiration," closes his inspiring book with this quotation from Henry Adams: "After all, man knows mighty little, and may some day learn enough of his own ignorance to fall down and pray."

Why shouldn't we all become seekers, with a prayer upon our lips, that we may readily become finders—finders of beauty, of kindness that so often lodges itself within the hearts of those we love, and seekers of truth and inspired friends. Every day of our lives we should say silently to ourselves: "I want to KNOW!"

This great Earth is scattered with ideas, hidden treasures, and revealed wonders. We still know next to nothing. There is work for all. The seekers are the ones who become the fortunate finders. It has always been so. That is the reason for the great growth and progress over the centuries. Only the brutal fist of war can stay the forward march of freedom and prosperity.

Tomorrow Mr. Adams will talk on the subject: "The Year's Touch"

## MURDER CASE AGAINST DEAN IS LEFT OPEN

BATON ROUGE, La. (AP)—Dr. George H. Mickey, insisting he was accused unjustly of murdering a woman professor, reports back to Louisiana State University today where he is dean of the Graduate School.

After nearly three weeks of investigation, a deadlocked grand jury recessed Thursday without deciding whether to indict the 50-year-old scientist.

The case was left open for possible future action by this or another jury. The charge remains on the books, and investigation in the case will continue, officers said.

**Held Incommunicado**

Mickey was arrested Jan. 14 and charged with murder in the fatal clubbing of Dr. Margaret McMillan, 38, an unwed biologist and longtime associate of Mickey. He has been held incommunicado from newsmen.

The scientist left jail grim and pale. He read a statement that referred to the "unjust accusation of being implicated in the crime." On advice of counsel, he answered no questions.

A $10,000 property bond put up by university friends gave Mickey his freedom from jail.

Dr. McMillan, an Illinois-born assistant professor of biology at the LSU branch in New Orleans, was found slain south of here Jan. 16.

MESA, Ariz. (AP) — Rookie Ron Santo isn't listed on the Chicago Cubs' roster but there are indications the 20-year-old may be at third base opening day. Manager Charlie Grimm says of Santo, who batted .327 at San Antonio last season: "I'm going to keep right on playing him in the exhibition games and we'll see how he makes out."

## Plan Hearing On Egg Marking Cost

HARRISBURG (AP)—A hearing will be held here May 18 on the cost of marking and dating egg containers under State Agriculture Department regulations.

John L. Rainey, director of the Bureau of Markets, said Thursday the hearing is aimed at collecting "accurate data to determine if burdensome costs for small producer-retailers actually exist."

State egg-marketing interests will make a 90-day study to determine marking costs.

## BOY, 15, HELD IN BOMB SCARES

HARRISBURG (AP)—A 15-year-old Hummelstown boy is being held by Dauphin County juvenile authorities in connection with a false bomb scare at his high school last week.

The youth was arrested by state police as he entered the building Thursday.

He was singled out by Mrs. Beatrice Grove, secretary to the principal, who said she recognized his voice when she received the telephoned bomb threat.

State police, who declined to identify the youth, said he admitted the hoax and implicated three other pupils. The three were released in custody of their parents.

Officers said the boy apparently wasn't connected with similar bomb threats received by other schools and businesses in the area in the past few weeks.

## IS AVAILABLE FOR V.P. POST

DETROIT (AP)—Gov. G. Mennen Williams, Michigan's chief executive for 12 years, says he won't run again but will toil for world peace, as vice president if he gets the chance.

The 49-year-old Democrat, known as "Soapy" to millions, told a radio-TV audience Thursday night he hopes to serve "in some public office where I could be effective."

His decision to step out after six consecutive terms, a record unmatched in the nation's history, dismayed some of his close friends and supporters but surprised no one.

He said he would be "pleased and honored" to be nominated for the vice presidency, but "I don't foresee that at the present momnt and I'm not actively engaged in pursuit of the nomination."

HOLLYWOOD (AP) — Lucille Ball and Desi Arnaz, television's most popular married couple, are in the divorce courts today.

The red - haired comedienne, often called the greatest feminine clown, sued her Cuban tycoon in nearby Santa Monica Thursday. Her charge was the usual Hollywood complaint—mental cruelty.

Her action confirmed a fact which had been well known in the movie colony for months. In her suit, she said the couple separated Feb. 26, 1959, after 19 years and three months of married life.

**Denied Rift**

During the year of separation, the two denied any rift in the marriage. One close friend explained why:

"The Desilu television empire is so vast that it's taken a team of Philadelphia lawyers a year to work out a settlement. There was nothing else they could do but deny that there was a break-up."

The two even filmed several "I Love Lucy" shows together in that time. The last was filmed only in January.

Arnaz at 43, five years younger than his wife, has been living in Palm Springs. Miss Ball has been living in the couple's Beverly Hills mansion with their two children, Lucy Desiree, 9, and Desi IV, 7.

"I've tried hard to be fair and solve our problems—but now I find it impossible to go on," she said.

**"We Deeply Regret"**

She added that the two will share joint custody of the children.

Arnaz said the divorce will be an amicable one. He will not contest it.

"We deeply regret that after long and serious consideration we have not been able to work out our problems. Lucy will pursue her career on television and I will continue my work as head of Desilu Production."

## No Examiners For Psychologists

SALT LAKE CITY, Utah (AP) —Utah psychologists have learned the state can't register them under a law set up to accomplish this.

The attorney general says the state can't find anyone qualified to sit on the state examining board which does the registering. He says the next Legislature will have to amend the 1959 law.

The statute says the board members must be registered psychologists of five years' standing.

### Too Much Harmony Wins Her Divorce

MOUNT CLEMENS, Mich. (AP) —Arden K. Wier, 26, said her marriage had less harmony than her husband's barber shop quartet.

She said her husband Edmund, 30, spent three or more nights a week with the quartet. He never spoke of anything but his singing.

Circuit Judge Alton H. Noe granted the couple a divorce Thursday.

### Trucking Firm Is Sued For $2 Million

BAKERSFIELD, Calif. (AP)—A local trucking firm whose oil rig was involved in a train collision that cost 14 lives is being sued for two million dollars by Santa Fe Railway.

Santa Fe accused Oglesby Brothers Trucking Co. of negligence in a suit filed here Thursday. It claims the truck, laden with 7,500 gallons of oil, drove in front of the eastbound San Francisco Chief passenger train Tuesday without stopping—in violation of California's motoring laws.

## OAKLAND CLUB GIVEN 14 MEN

OAKLAND, Calif. (AP) — Chiefs of the new American Football League are hunting a way to beef up the roster for Oakland, the last club to join.

They boosted the number of Oakland players to 31 Thursday by assigning it 14 men from the Minneapolis-St. Paul team.

Oakland's owners said they wanted at least 35 more players from the AFL's oher seven teams and Commissioner Joe Foss was sympathetic.

"I want to see Oakland come out of this with a club that can give anyone a rough time when the season opens next fall," he said. "We want as balanced a league as we can set up."

Oakland took an AFL franchise without a coach, players or a stadium. Since then its owners have signed Eddie Erdelatz, former Navy coach, and 17 other players in addition to the 14 named Thursday.

The team probably will play at least its first season in Candlestick Park, a 45,000-seat baseball park the city of San Francisco built for its Giants.

### Big, Messy Home Is Divorce Grounds

DETROIT (AP)—Dr. John Hannan Jr. says a rabbit has full run of his $40,000 home in suburban Grosse Pointe.

In a divorce petition Thursday the dentist charged his wife kept their home in constant disorder.

Hannan said hs wife explained the messy condition of their former home by saying it was too small. But when they moved to the larger house, Hannan, said, the result was "a bigger mess."

## IS DOWNHILL SKIING COURSE GETTING EASY?

By ALAN CLINE

SUN VALLEY, Idaho (AP)—Is the downhill skiier, usually considered the daredevil of sports, becoming a spoiled brat?

Sigi Engl, course setter for this weekend's special Harriman Cup races, answers yes, and he blames International Ski Federation—FIS—officials for requiring easy courses.

Engl, head of Sun Valley's 70-man ski school, said today that FIS officials now require courses with so many control gates that a racer, even though attaining 70-mile-an-hour speeds, "doesn't have to think but instead just has to follow his nose."

**Cites Squaw Valley**

"We should set courses that make men out of these guys instead of a bunch of complainers," he said, adding that some racers complain about nearly everything.

Engl, 48 and an international champion in his racing days, said that because of tragedies the FIS has gone from one extreme—all danger—to the other—all safety.

He cited the Olympic men's and women's downhill courses at Squaw Valley, Calif., which had 19 and 20 control gates, and his own downhills—12 for the men and 17 for the women.

All those control gates just take the speed out of the race, he said.

The 1960 Harriman Cup is a special invitation affair this year, for Olympic skiers only. Fifty men and 25 women from 14 nations are scheduled to participate.

## SAYS HAWKS ARE IMPROVING

PHILADELPHIA (AP) — The coach of the NCAA - tournament bound St. Joseph's Hawks says the basketball team appears to be gathering momemtun.

"And that's important when you are about to enter a tournament," added Jack Ramsay Thursday after the Hawks were chosen to represent the Middle Atlantic Conference in the tournament.

The school's selection was announced Thursday by Willis Stetson, executive director of the Middle Atlantic Conference.

The Hawks won the conference university division crown with a victory Wednesday night over Lafayette. That gave the team a 7-1 conference record and an 19-5 record.

**One MAC Defeat**

Its only MAC defeat was against LaSalle (6-1), runnerup in the standings. LaSalle was beaten by third-place Temple.

The Hawks draw a bye in the first round because of the excellent records of the MAC representatives in the past NCAA tourneys.

The university divison tournament begins March 8 in New York. St. Joseph's will play its first game in the second round, March 11, in Charlotte, N. C.

## Farrell's Hopes Hinge On Brace

CLEARWATER, Fla. (AP)—Remember Dick Farrell, the Philadelphia Phillies shining star of early 1958.

The right-handed reliever was going great and was picked for the All-Star game but slumped shortly after the 1958 contest.

He never did regain completely the form he displayed and toward the end of 1959 the Phillies shipped him off to Buffalo of the International League.

Farrell is back now and he hopes a new type ankle brace will help him regain his old form. The brace was devised by trainer Frank Wiechec and Martin Shapiro, an orthopedic shoe expert.

Farrell, who was stricken by polio as a youngster, has always been bothered by a weak left leg and ankle.

"This support should help me," says Farrell. "I've got to produce this year or else."

## BAHAMA WILL FIGHT TONIGHT

NEW YORK (AP)—Yama Bahama, who has found a home in Madison Square Garden, fights Argentina's Victor Zalazar in a 10-round nationally televised middleweight bout at the big arena tonight.

Bahama, a former fishing guide in the Bahamas whose real name is William Butler, has a five-fight winning streak and is a 9-5 favorite.

It's the fifth Garden main eventer for Bahama, who has a 56-11 record. He's lost only once at the Garden, that was to Isaac Logart last year.

A referee and two judges will score the bout on a round basis with a supplementary point system used to help break a draw. It gets the usual Friday night national TV-radio coverage (NBC), beginning at 10 p.m.

## UTAH REDSKINS READY FOR NEW SHOT AT TITLE

By DON WEISS
Associated Press Sports Writer

Worrisome Jack Gardner, tired of seeing his teams used as a springboard toward the National Collegiate basketball title, has the Utah Redskins just about set for another crack at the NCAA championship today. He hopes his luck is changing.

Only two losses in a row can keep Utah out of the NCAA tournament as the Skyline Conference champion after the fifth - ranked Utes' 68-61 victory over Wyoming Thursday night. With one game to go in the Skyline race, Utah (23-2) has a one-game lead over Utah State, which drubbed New Mexico 103-72.

Beating Colorado State U. Saturday will wrap it up for the Utes, who would be forced to play off with Utah State if they lose and the Utags win their finale.

**At Semifinals**

Favorites North Carolina, Wake Forest, North Carolina State and Duke reached the semifinals of the Atlantic Coast Conference championship tournament, 14th-ranked New York U. warmed up for the NCAA with a strong 74-67 victory over St. John's (NY), but Southwest Conference champ Texas was upset by 17-game loser Texas Christian, 81-73 in Thursday night's other big games.

North Carolina, off to a slow start, rallied for an 84-63 victory over Virginia in Raleigh's ACC tournament, which determines the league's NCAA team. The Tar Heels will play one semifinal tonight against Duke, which whipped South Carolina 82-69. N. C. State, a 74-58 winner over Maryland, will play Wake Forest in the other semi. Wake Forest, now 20-6 and co-favored with North Carolina, downed Clemson 74-59.

## CANADIENS ARE NHL CHAMPS

By THE ASSOCIATED PRESS

The Montreal Canadiens have wrapped up their third straight National Hockey League championship to the suprprise of no one. But there is an element of the unexpected in the way the Chicago Black Hawks are leaving the Boston Bruins behind in their duel for the fourth and last spot in the Stanley Cup playoffs.

**Hawks Widen Gap**

While the Canadiens were defeating the Toronto Maple Leafs 5-1 Thursday night for the clincher, the Hawks down the Bruins 2-0 to increase their margin over Boston to four points.

Montreal, bidding for its fifth straight Stanley Cup, bunched three goals in a space of two minutes and 40 seconds of the second period to overcome a 1-0 first period deficit.

**Return Of Litzenberger**

Eddie Litzenberger, back in the Chicago lineup for the first time since Jan. 17, assisted Bobby Hull on his 36th goal and Glenn Hall did the rest as he posted his fifth shutout of the season and the 29th of his career. Litzenberger hadn't played since being injured in an auto accident which killed his wife.

## Bullets Withdraw From Swim Meet

Gettysburg College will not participate in the annual Middle Atlantic Conference swimming meet today and Saturday at Bucknell University, Lewisburg.

The decision was reached this morning to withdraw the squad after continued hazardous driving conditions for the long 100-mile trip were reported.

The Bullet wrestling squad left this morning for Annville to take part in the conference wrestling tournament at Lebanon Valley College.

## WILLIE MAYS DISPLAYS OLD POWER AT BAT

By JIM KENSIL
Associated Press Sports Writer

Will Willie Mays carry the big stick in Candlestick Park?

The San Francisco Giants' new field is beautifully tailored for power hitters with dimensions of 330, 410 and 330 feet. The walls are 10 feet high all the way around. So the strong boys, right or left-handed, are starting from scratch.

But the distances and heights never have bothered right-hander Willie. When he belts 'em, they're gone. It's just that he hasn't been belting the same in California as he used to in New York.

**Seven Homers For Willie**

In Phoenix, where the Giants are in spring training, Willie hit two home runs Thursday. He hit four Monday and another Wednesday for a total of seven this spring. True, they are only batting practice homers, but it makes one think of 1954 when Mays hit 41 and led the New York Giants to a pennant, and of 1955 when the "Say Hey" Kid blasted 51 homers and for awhile threatened Hack Wilson's National League record of 56.

Mays hit only 29 homers in '58 his first year in California, and Orlando Cepeda, the young first baseman who never played in New York, hit 25, to win the fans and rookie honors.

In other training camp news, the Pirates were rained out of workouts at Fort Meyers, Fla., but Manager Danny Murtaugh scheduled the first intrasquad game for today. The Detroit Tigers and St. Louis Cards will play their first intrasquad games Saturday.

## STARTS LONG PRISON TERM

PHILADELPHIA (AP) — Elmer D. (Cash) Register starts a 12-24 year sentence today for hitting an 8-year-old girl and for two morals offenses involving boys.

He received a suspended sentence for two more morals convictions. His will be a check, the judge said, against committing crime again once he is free.

Judge Bernard J. Kelley, of Quarter Sessions Court, sentenced the 20-year-old Negro Thursday.

Register was an Army recruit in February, 1959, when he was arrested by police who were looking for the knife slasher of several white girls and women.

One of those slashed was Debbie Poisson, 8. It required 100 stitches to close the wound across her face.

Register was acquitted of this crime. He claimed complete innocence. But he was convicted of hitting Eileen Flanagan and of the morals offenses.

## NBA IS READY FOR PLAYOFFS

By THE ASSOCIATED PRESS

The National Basketball Assn. is ready to swing into the playoffs even though the regular season doesn't end until next Thursday.

The last playoff bracket was filled Thursday night when the Minneapolis Lakers clinched third place in the Western Division with a 117-114 victory over Cincinnati in the first game of a doubleheader at Philadelphia. In the other game, the Warriors turned back the Detroit Pistons 110-101.

At Syracuse, the Nationals romped to a 149-108 victory over Boston's Eastern Division champions.

Minneapolis and Detroit open the Western Division playoffs March 12 at Detroit. Philadelphia and Syracuse meet in the opener of best-of-three Eastern series March 11 at Philadelphia.

## ROBERTSON AND WEST TOP ALL AMERICANS

By TED MEIER
Associated Press Sports Writer

NEW YORK (AP)—The "Big O" and the "Cabin Creek Comet" top the 1960 college basketball All-America announced today by The Associated Press.

That means, of course, Oscar Robertson of the top-ranked University of Cincinnati Bearcats, and Jerry West of West Virginia's Southern Conference champions.

These two seniors, regarded as the best college players of the season, topped the voting by 329 sports writers and broadcasters from all parts of the country.

**311 For Robertson**

Rounding out the first team is Jerry Lucas, famed sophomore of Ohio State's Big 10 champions; Darrall Imhoff, 6-10 senior from California's defending NCAA champions and Tony Jackson, a junior from St. John's University of New York, the defending NIT champions.

Robertson polled 311 first place votes in making the All-America for the third straight year. West, the only other repeater from the 1959 All-America, received 304. Lucas polled 253 and Imhoff 234. There was a big spread in the voting thereafter with Jackson beating out Tom Stith of St. Bonaventure for the first team, 61-58.

Stith, a junior second only to Robertson among major college scorers, was named to the second team along with sophomores Terry Dischinger of Purdue and Chet Walker of Bradley, junior Roger Kaiser of Georgia Tech and senior Len Wilkens of Providence.

**To Get Certificates**

Lee Shaffer of North Carolina, Billy McGill of Utah, Horance Walker of Michigan State, Bill Kennedy of Temple and tiny 5-6 Dick Hickox of Miami (Fla) were named as a third team. Hickox, perhaps the smallest player in major college ranks, led the Hurricanes into the NCAA tournament with their best record ever.

Dave Debusschere of Detroit, Jimmy Darrow of Bowling Green, Frank Burgess of Gonzaga, York Larese of North Carolina; Chris Smith of Virginia Tech, Jeff Cohen of William and Mary and Jay Arnette of Texas top an honorable mention list of 25. Those on the first three teams will receive certificates from The Associated Press.

## CAROL HEISS WINS AGAIN

By JACK HEWIN

VANCOUVER, B. C. (AP) — Carol Heiss, her brilliant best, flashed to her fifth consecutive world women's figure skating championship Thursday night.

People who saw both performances said this was better than the free skating effort that helped win Miss Heiss an Olympic gold medal.

Second was the comely blonde who won the Olympic silver medal at Squaw Valley — Sjoukje Dijkstra. Third place went to the 18-year-old Temple City, Calif., girl who followed the same pair in the Olympics, Barbara Ann Roles.

Miss Heiss was placed first by every judge, receiving nine ordinals. Her point total was 1696.4. Miss Dijkstra had 19 ordinals and 1642.3 points.

The 24 women contestants completed their four-minute programs at the stroke of midnight.

Today the attention returned to the men's competition, in which 17 are entered.

## KUTZTOWN TO OPEN DEFENSE THIS EVENING

By FRED WALTERS

HARRISBURG (AP)—Kutztown opens defense of its Class B state basketball championship tonight.

The champs drew East Pennsboro in the first round of the District 3 playoffs.

Of the three classes of competition in the PIAA, Class B offers the most evenly matched race.

There are a host of strong challengers for the Cougars' crown.

**List Of Challengers**

These include Columbia, Eastern and Annville in its own district and Bristol and Sharon Hill (Dist. 1), Fell Twp. and West Pittston (2), Montoursville (4), Meyersdale (5), Wampum (WPIAL), St. Oryeokol Lawrence Park, Conneaut Valley, Cochranton and West Middlesex (10), Coaldale, Pine Grove and Fountain Hill (11) and Montrose (12).

Wampum has been a consistent winner over the past 10 years with two state championships in its trophy cases.

In Class A, where defending state champion Farrell began its run through the WPIAL playoffs with a victory last Monday night, only a handful of good challengers appear.

**In Other Districts**

These would include Farrell and also Springdale and Uniontown of the WPIAL. Nanticoke (2), Shamokin (4) and Altoona (6) are highly regarded but the forecasts for the moment lean toward any one of the three WPIAL teams as eventual state champ.

District 11 has three contenders in Mahanoy Area and Catasauqua, two unbeaten squads, and Hazleton. They promise an interesting scrap for the district title but beyond that they remain a question.

Farrell and Springdale will stage a return match of their regular season game in Saturday night's WPIAL-A quarterfinals. Springdale won the first meeting, Farrell's only defeat of the season. Uniontown, the WPIAL's only unbeaten team, doesn't get under way in the playoffs until next week.

**Favor West Reading**

In Class C, West Reading was favored to repeat, principally on the scoring ability of Ron Krick, 6-foot-8 junior who has broken Wilt Chamberlain's three-year state scoring record set at Philadelphia's Overbrook High and is only 80 points away from Don Hennon's four-year mark set at Wampum. West Reading meets Pequea Valley in a district 3-C first round game at Albright College tonight. The game was postponed from Thursday night by snow.

There aren't too many Class C teams in the playoffs and none is rated up to the Cowboys now.

# Governor Cites State's Creed On "Civil Rights"

HARRISBURG — Governor David L. Lawrence Thursday laid down Pennsylvania's creed on civil rights.

"What we seek is the means to insure every resident of Pennsylvania the essentials of human dignity—an adequate education, equal opportunity to work at the job for which he is best qualified, the right to live in a decent house in the neighborhood of his choice, and full use of all public facilities."

These were the governor's words as given by Secretary of Labor and Industry William L. Batt Jr., to the Committee of Governors on Civil Rights at its third annual convention today at St. Paul, Minn.

Secretary Batt, Secretary of Property and Supplies Andrew M. Bradley and Elliott M. Shirk, executive director of Pennsylvania's Fair Employment Practice Commission, are representing Governor Lawrence at the St. Paul gathering.

The Governor's statement also cited Pennsylvania's leadership in the field of civil rights.

**"Right To Vote"**

"In Pennsylvania all citizens of the state exercise the right to vote freely, regardless of religion, color or ancestral background.

"In your consideration of all the specific fields of Civil Rights, I think the scoreboard will show that Pennsylvania is a leader in the area of fair employment practices," the statement continued.

"A strong Fair Employment Practice Act was adopted in 1955, the culmination of a 10-year fight by determined civic, religious and labor groups. The commission appointed to administer the FEPC law has made significant progress in eliminating discrimination in employment because of race, color, religion, ancestry, age and national origin, but has been handicapped by an inadequate budget dating back to 1957.

"Consequently, it was with a great deal of satisfaction in December 1959 that the administration effected a fifty cent increase in FEPC funds. The new budget will permit the commission to increase its staff from 16 to about 23 persons and to speed up its complaint investigations and its community education programs."

Governor Lowrence also said that broadening of Fair Employment Practices legislation would be vigorously sought in 1961. Similar legislation failed of passage in the 1959 session of the General Assembly.

# 2,350 QUAKE VICTIMS BURIED IN MASS GRAVE

By HARVEY HUDSON

AGADIR, Morocco (AP) — Rescue team officials said Thursday 2,350 victims of the Agadir earthquakes have been buried in mass graves and that whole areas of the city remain to be searched.

As the figure was disclosed, Moroccan army troops sealed off the city. U.S. military teams and hundreds of French sailors deployed through the streets spraying rubble with disinfectant.

Crown Prince Moulay Hassan ordered "all living souls to be evacuated from Agadir."

Moroccan government officials said they believed at least 5,000 persons were killed or injured when two massive earthquakes and a tidal wave wrecked the port city on the southern Moroccan coast Monday night.

**No Accurate Count**

An International Red Cross representative earlier had said he felt the figures would be 3,000 dead and 5,000 injured. But there was general agreement that no accurate count of the casualties would be possible.

Despite ceaseless rescue efforts since the quakes struck, some living were thought to be still trapped beneath the rubble of the shattered buildings.

The U.S. heavy cruiser Newport News arrived Thursday with bulldozers and units of a U.S. Army Engineer battalion. They joined more than 1,600 sailors from a French naval squadron which arrived in the harbor Wednesday night after steaming at full speed from the Canary Islands.

**Covered With Quicklime**

In the fields outside the city shrouded bodies were thrown in mass graves and covered with quicklime.

A Roman Catholic priest said last rites over the European victims as surviving relatives stood alongside.

Rows of Moslems worked side by side, digging a long trench for 75 bodies awaiting burial. The hot weather and a lack of embalming facilities made haste necessary.

U.S. and French rescue planes roared overhead on mercy missions in and out of the French air base just outside the stricken city. The single runway was crowded with planes bringing in food, medicines and rescue equipment.

# LIST THINGS WELL KNOWN BUT EVASIVE

By HAL BOYLE

NEW YORK (AP)—There are things in this world you hear about all your life but never get to see yourself.

Ever make a list of them? Here is ours:

A kid who ever threw a snowball at a man in a silk top hat. Most kids are asleep when men go out in top hats.

**Executive Book Juggler**

A business executive who actually worked 15 or 16 hours a day. Anyone who spends that long on the job must be juggling the firm's books.

The little man who wasn't there.

Any intellectual who could quote any other line from Gertrude Stein besides "A rose is a rose is a rose."

A successful career woman who would really rather be a housewife with five kids.

Toothpaste that would leave your mouth feeling fresh all day.

**Wishful Thinking Tonic**

A hair tonic that would make beautiful girls chase you in the street.

A talking dog that could say a word that doesn't rhyme with roof.

Any kind of a talking horse.

A reporter who thought the desk had improved his copy by judicious cutting.

A garbage collector who gently placed the can back on the sidewalk.

**Mail Order Music**

Anyone who ever learned to play the piano, the guitar, or the kazoo by taking 10 easy lessons by mail.

A bank robber who split his take-home pay with a poor widow.

A person who kept five cats and could still stand people.

A cab driver who ever said anything worth carving in bronze.

An Internal Revenue agent who suffered from insomnia because he felt he had been unfair to a taxpayer.

**Just Can't Happen**

A late arrival at the theater whose seat was on the aisle.

Any woman who actually died of a broken heart.

A wife who paid her divorced husband alimony.

# Local Woman Finds Cancer Cure In An Old Cook Book

UNIVERSITY, PARK, Pa.—One letter from a woman in Gettysburg contained a cancer remedy clipped from an old cook book. Another was a warm and pleading letter from a woman in Hollidaysburg asking for help with a dog who was dying from cancer.

Letters from all over the state are still reaching the desk of Dr. Robert L. Cowan, associate professor of animal nutrition at the Pennsylvania State University. And sometimes the letters are followed by a sack full of herbs.

It all started August 2, 1959, when an article appeared in several Pennsylvania newspapers telling of Dr. Cowan's re-discovery of Rose Noble (a plant) and of the tests then being made on Rose Noble at the Cancer Chemotherapy Service, Bethesda, Md. The Bethesda people, among them a friend of Dr. Cowan, are checking into old folk remedies in quest of a clue to a cancer cure.

A woman from Altoona wrote that she had found a remedy in a book copyrighted in 1884 which gives a cure from cancer: "Take the blossoms of red clover and make tea of them, and drink freely. . . ."

A letter from a man on Mechanicsburg R. 4 mentioned blood root as a cure of warts. From Lucinda and Harrisburg came recommendations for milk weed as a cure for warts. From Pittsburg: "I wonder if you would tell me how to get a clearer picture of Rose Noble in color so I could find it. . . ." From Harrisburg: "My daughter has about ten warts on her hand and I was going to have them removed surgically but if there is a less painful procedure I would very much like to know about it." From DuBois came a report on a grandfather who had been cured of cancer by chewing beechnut, a plant that grows beneath beech trees.

These letters have been diverse in subject matter. But they all have ended on a warm note of hope that Dr. Cowan's small contribution to the gigantic task of checking old folk remedies might in some way lead to a cure for one of the nation's most dreadful killers.

# PROBERS SEEK CAUSE OF TRAIN TRUCK CRASH

BAKERSFIELD, Calif. (AP) — Squads of investigators tried today to find what caused the collision of the Sante Fe Chief No. 2 streamliner, a San Francisco to Chicago passenger train, and a two-trailer truck rig loaded with 7,000 gallons of crude oil.

It happened at 5:10 p.m. Tuesday at the marked Austin Hageman road crossing on quiet San Joaquin Valley flatlands seven miles northwest of Bakersfield.

Fourteen persons died and 72 were injured in the crash and fire.

**24 Escape Injury**

Of the 109 aboard—76 passengers and 3 crewmen—only 24 escaped injury. Of the injured, some seriously and a few critically, 44 remained hospitalized today.

Trucker John Garrett, 48, of Bakersfield apparently tried to swerve his rig and leap clear at the last instant. But an explosion of flames incinerated him in a roadside ditch.

Train Engineer L. A. Snyder, 67, and Fireman Austin Braley, 43, both of Fresno, Calif., were at the controls and died on the instant the train hit the truck at a 45-degree angle. But apparently they, too, had seen what was coming. Kern County Coroner Stanley Newman said they were far back in the engine compartment.

"It is clear they were running away from the collision," he said.

ADVERTISE IN THE TIMES

# TWISTER HITS 2 FLORIDA TOWNS

ORLANDO, Fla. (AP)—A tornado struck the small central Florida communities of Groveland and Apopka Thursday. Damage was widespread, and at least six persons were hospitalized.

The twister struck before daylight at Groveland 20 miles west of here, then jumped to Apopka, about 20 miles to the northeast.

Four Apoka Negroes were hospitalized. They were listed as Willie Easterling, Frank Maker, James Sistrunk, and Ivis Shy.

One house was demolished at Apopka, and roofs or walls were blown from others. Several persons there suffered minor injuries including cuts from flying glass. Many windows were broken.

Trees and power poles were down in both communities.

At Groveland Mr. and Mrs. A. R. Peddy were hurt when their trailer was overturned and demolished.

# LIVESTOCK HIT BY COLD SPELL

KIM, Colo. (AP)—Sub-zero cold bit into storm-weary eastern Colorado again Thursday as Army bull-dozers and ranchers renewed their campaign to avert heavy livestock losses.

Three task forces directed by a helicopter and by local guides churned through ocean-like waves of snow to open roads to rural homes and ranches. The most prolonged cold spell in years is feared to be taking a heavy toll of cattle and newborn calves.

Harsh winds that drifted snow six and eight feet high hampered the Army vehicles in their first missions Wednesday.

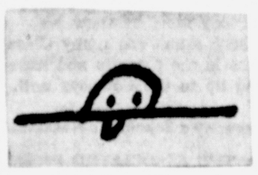

The 24 officers and men arrived here earlier this week from Ft. Carson, Colo., 200 miles away, in response to pleas from Las Animas County officials for help.

Col. Charles L. Hertman, Ft. Carson's acting commander, was due here today by helicopter to determine if further he pl is needed.

# Says Need For Christians Is Desperate

**By REV. MAYNARD S. BARNHART JR.**
**Pastor, Trinity Lutheran Church, Arendtsville**
**"THE WORK OF THE EVANGELIST"**

Out of the rumble of our time the Christian Church must hear one clear voice: "Do thou the work of the evangelist." Never has the conviction been so unanimous that we must "evangelize our generation." The need for Christians is most desperate. By term Christian I don't mean those who seek ecclesiastical marriages and burials and those who attend worship services on special occasions. I speak of the people who actually possess the spiritual qualities Christ taught and who realize such qualities are needed in practical every day living.

A person running for public office might make a statement that he is a Christian. Yet you will know that does not mean as much to him as if he were to state his membership in some other organizations. The fact that a man is a professing Christian does not mean very much to the masses. Does it? For do not the majority of the people of our country profess Christianity? So, in our day and age actually it makes little difference in a man's reputation whether he is a Christian or not.

**"Evangelize Ourselves"**

Before we in the church can evangelize the world we must first evangelize ourselves who so freely use the name Christian. Christianity in our day and age, if it is going to be effective, must have the same meaning that it had originally. It must mean that a person who claims the title has made a personal surrender, a commitment of his life to Christ. The churches are getting much criticism today in that they are composed of people who are dead weight as witnesses to the world; because there is so little in them that points to Christ or posess anything that would indicate that they are any different from the average run of decent pagans who have no knowledge of God. Through one reason or another they have been brought into the orbit of the church.

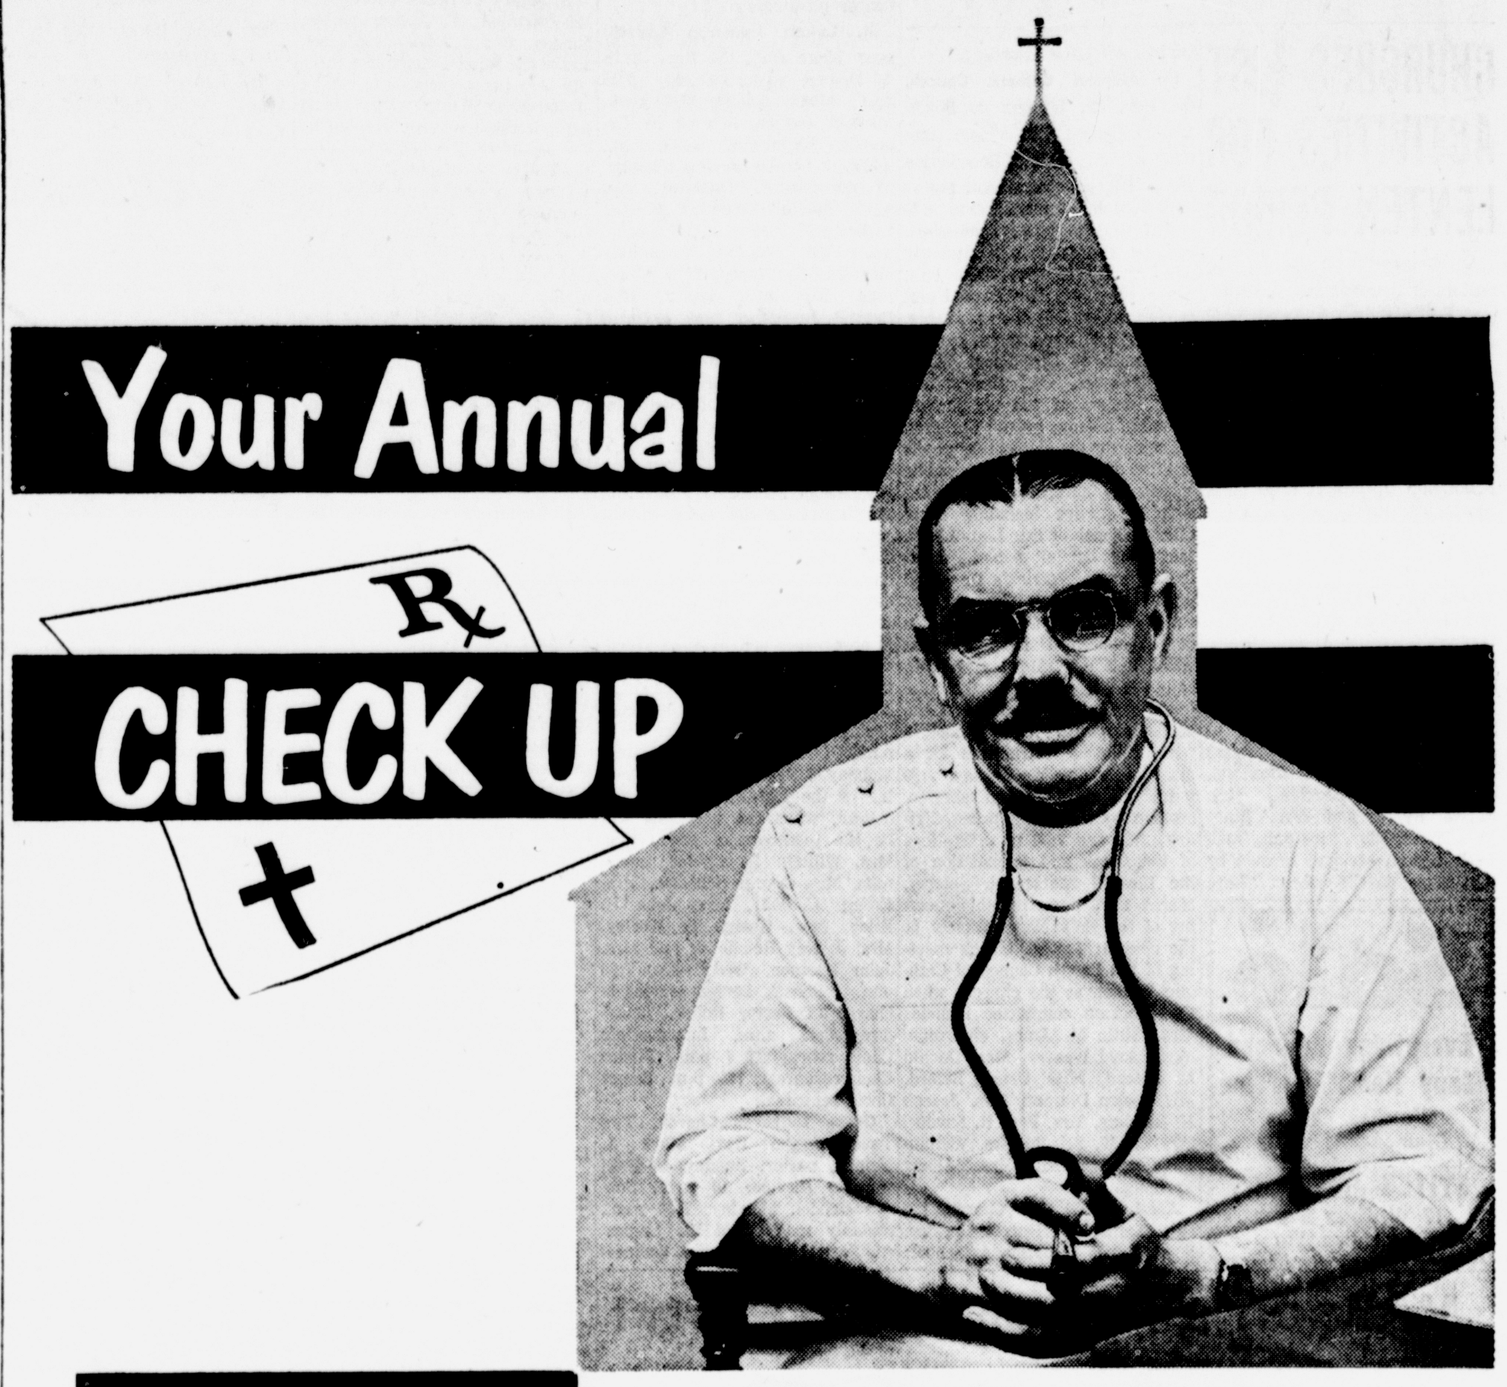

They have joined the organization, have glibly taken its vows, participate in its worship services but they have caught so little of its meaning, applied so little of its spirit and used so few of its principles, and in reality, still so much a part of the pagan age that they are actually by their very thoughts, words and deeds becoming witnesses against the church.

**Three Basic Reasons**

It is a motley crowd that throngs the church buildings on a Sunday morning. Men, women and children of every social, economic and racial type. That, of course, is the way it should be, but they are there for as many different reasons. There are actually only three basic reasons why any person should come to church worship in our country: (1) To learn about God; (2) To worship God; (3) To serve God. There must be in the churches a hunger and a thirst after the righteousness of God. But there is other than that there, really; there is present a fear that the righteousness of God might come, for in coming it may come too close interfere too deeply, change our ways too drastically.

Jesus said, "Behold I stand at the door and knock." So many people have heard and opened the door. So many people have slammed or eased it shut again. So many treat Him like a salesman when He knocks; keeping their foot at the door, not letting Him in as if He were trying to sell them a bill of goods. To accept Christ is a costly thing, costly to the ego, for once we accept Him He cuts right through human nature and marches to the heart and demands unconditional surrender. Many of use are forever trying to find a less costly way of serving Him. Always seeking for innumerable devices by which to satisfy the hunger without making a clear cut decision, a complete surrender.

Every conscientious church member must keep in mind that living example of the preaching of Christ: "Ye shall be my witness. . . ." Remembering that the witness is to bring the gospel into application in his own life and then into the lives of others. As long as we leave the gospel in Palestine, in the past, in the book or in a church building, nobody will be disturbed. So many of us are like the man in the parable who lost his talents: He lost them because he buried them in fear of losing them.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

| Day | Book | Chapter | Verses |
|---|---|---|---|
| Sunday | I Corinthians | 6 | 19-20 |
| Monday | Romans | 12 | 3-8 |
| Tuesday | Luke | 12 | 22-30 |
| Wednesday | Psalms | 77 | 11-15 |
| Thursday | Ecclesiastes | 3 | 11-15 |
| Friday | Mark | 4 | 14-25 |
| Saturday | I Corinthians | 16 | 1-2 |
| | | | 13-14 |

It's a good idea to have a check up every so often. And the idea ought to be extended to our spiritual as well as our physical health.

For instance, how much are we *thinking* about the truths our churches teach us? Do we understand God . . . His love for men . . . the sacrifice of Christ for our sins . . . the way of Christian living?

And how much are we *doing* for God and our own souls? Are we worshipping every Sunday . . . rearing our children in the Faith . . . serving the Church and fellowmen according to our talents and physical strength?

And how much are we *giving* for God to use? Do we promise Him a fair proportion of our income . . . do we set it aside regularly as a sum that belongs to God and to those who need our help . . . do we have the courage and faith to strengthen our Church by more generous support?

# ADMITS THEFT OF $270,000 IN THREE YEARS

NEW YORK (AP) — A Wall Street broker with an expert knowledge of electronic business machines and a yen for gambling and high living has confessed all to the district attorney.

"All," according to Dist. Atty. Frank S. Hogan's office, amounted to approximately $270,000, stolen over a period of eight years from Walston and Co., Inc., members of the New York Stock Exchange.

But Frank B. Haderer, 50, an $18,000-a-year Walston vice president, can be charged with only $170,000 of the thefts because of the statute of limitations.

Hogan's office said the Walston firm discovered the thefts while auditing stock exchange accounts of its employes.

No money belonging to clients was involved, the firm said, and the losses are covered by insurance.

**Forgery, Larceny Charges**

Haderer was discharged, and a surety company which covered the company's losses brought charges against him. Haderer was questioned all day Wednesday, and finally forgery and grand larceny charges were placed against him.

The district attorney's office said Haderer explained in detail how he managed to take more than a quarter of a million dollars in amounts from $2,000 to $3,000 a month.

He said he would go to the office after hours or on Sunday, and would alter IBM cards recording the firm's interest on money advanced to clients for stock purchases on margin, fixing them to show a smaller amount of interest than they should.

**Made Small Refund**

Then he would punch the amount of the difference on other IBM cards showing the accounts of himself and his wife for purchase of stocks.

Their personal accounts would then be used to buy stock and sell it for cash.

And the cash, the district attorney's office said, went mainly for trips to the gaming tables in La Vegas and visits to New York night clubs.

The Walston firm has offices in 61 cities.

Haderer, authorities said, has paid back a small amount of the stolen funds.

## Methodists Okay $369,000 In Loans

PHILADELPHIA (AP) — The newly-created Methodist Investment Fund has approved $369,000 in loan for mortgages on 17 churches in 14 states.

The Methodist Board of Missions organized the fund to loan churches money for new construction.

H. Conwell Snoke, of Churchville, Pa., treasurer of the board's Division of National Missions, was named president of the fund.

Snoke said Wednesday more loans will be made as money is invested in the fund.

Churches receiving $25,000 each in loans for new mortgages included the Linesville, Pa., church.

# BALANCED TV MENU LISTED FOR NEXT WEEK

By CYNTHIA LOWRY
AP TV-Radio Writer

NEW YORK (AP)—Viewers who hit television's highlights have a well-balanced menu during the next seven days. It runs the gamut from a philharmonic concert to a William Faulkner adaptation, and touches satire, mystery, romantic music, steer-roping and amateur contests along the way.

Tonight, for instance, there is another Art Carney revue on NBC. This one, called "The Best of Anything," promises to take a sharp look at the American custom of awards (8:30-9:30 Eastern Standard Time).

CBS' Show of the Month is an adaptation of Robert Louis Stevenson's "Treasure Island," with Hugh Griffith playing Long John Silver. It will be shown between 7:30 and 9 p.m. Saturday—early, for the benefit of the younger generation.

**Mystery For Sunday**

Sunday brings another New York Philharmonic Young People's concerts on CBS (1-2 p.m.) with young people themselves as soloists.

NBC's Sunday Showcase (8-9 p.m.) is a mystery, "Turn the Key Deftly," with Julie Harris and Maximilian Schell. It is followed on NBC (9-10) by Roy Rogers, Dale Evans and the Houston Rodeo with 300 performing cowboys, horses and steers.

**Gleason Monday**

Jackie Gleason will lead a 60 piece orchestra in a medley of his own compositions on Monday night's Kate Smith Show (CBS, 7:30-8). Playhouse 90 also will turn up Monday night (9:30-11), this time with an adaptation of Faulkner's "Tomorrow" starring Richard Boone, on holiday from "Have Gun, Will Travel," and Kim Stanley. Ted Mack and the Original Amateur Hour will make its ABC debut at 10:30. And, of course, Jack Paar returns to his late evening show on NBC after a well-publicized three-week holiday.

Tuesday night's Startime on NBC will be another nostalgic music show—"The Swingin' Singin' Years"—with a lot of stars including Jo Stafford, Vaughn Monroe, Woody Herman, Charlie Barnet, Stan Kenton and Louis Jourdan. The second part of Steel Hour's "Hadley" drama of a family dynasty will be shown Wednesday night (CBS, 10-11). On Thursday night there's Peggy Lee and Jack Carter on CBS's 10-11 revue.

# DECLARES IKE MAKES HIS OWN BIG DECISIONS

WASHINGTON (AP)—Sen. Karl E. Mundt (R-SD) says President Eisenhower makes national security decisions after presiding like a judge at sessions in which subordinates debate the issues.

These same subordinates are questioned by the President before he makes major security decisions, Mundt said Thursday in a statement he read to the Senate.

Mundt denied that Eisenhower makes up his mind on issues before the National Security Council by having subordinates bring him agreed-on decisions. Mundt aimed the denial at Walter Lippman, who wrote in his syndicated column on March 1 that "on the whole, this is President Eisenhower's method."

The matter stemmed from recent congressional testimony on the National Security Council given by Robert A. Lovett, a Republican banker who was under secretary of state and secretary of defense in the Truman administration.

ASHEVILLE, N.C. (AP) — The National Weather Records Center and the Air Force's Air Weather Service, federal agencies which compile weather data from all over the world, were closed Thursday. The 400-500 employees couldn't get to work because of eight inches of snow.

## L. U. Collins And Son Have ExperienceAndKnow-howIn Plumbing, Heating Business

DANIEL W. JOHNS

Seventy-five years of experience, expert workmen, fair prices and the opportunity to make financing arrangements—those are the top qualifications L. U. Collins and Son, Gettysburg R. 1, offer their customers.

The business that started in 1885 with the installation of the first water pumps in the area has grown into a general heating and plumbing business that serves a wide area with a fleet of three trucks and a staff of well-qualified and experienced workmen.

L. U. Collins and Son, now being operated by Mrs. William Collins, wife of a member of the third generation of the Collins family in the pump and plumbing business, handles installation of all types of heating plants and installs complete kitchens and bathrooms as a specialty.

DANIEL W. JOHNS

**Thousands Of Installations**

Seventy-five years ago—it was in 1885—the first water pump in this area was installed by William Collins, the founder of L. U. Collins and Son.

Since then thousands of pumps have been installed in homes and on farms and business places by the Collins farm.

As pumps became more modern and more highly mechanized and as modern plumbing became big business, the Collins firm kept pace with progress and broadened its field of operations to install the best in plumbing and then extended its service to include heating plants.

**Diamond Anniversary Year**

Through the year, the name of Collins has been synonomous with good products, good service and fair dealing and the current management is dedicated to perpetuating the name and reputation of L. U. Collins and Son in the area.

"Fittingly, this being oour diamond anniversary year," Mrs. Collins said, "We at Collins can offer services that are as modern and varied as our times."

Daniel W. Johns, who since last July 1 has been manager of the L. U. Collins and Son business, has been active in the plumbing, heating, pump, air conditioning and kitchen modernization field for the last 30 years. His experience covers fields allied to the plumbing and heating business such an laundry and dry cleaning plant installations and maintenance as well as high pressure steam boiler and piping work.

**Financing Arrangements**

"This knowledge and experience are available to all our customers, merely for the asking," Mrs. Collins said. "We like to feel there is no problem that can't be solved and no heating or plumbing installations so inferior that they cannot be brought up to better standards by our workmen and know-how.

"We have all he equipment needed for customer convenience and service, including financing arrangements. If you're considering a new kitchen or bath, plumbing alterations or water system installations, call L. U. Collins and Son at Edgewood 4-1267 or stop in at our headquarters along the Gettysburg-Littlestown Rd., four and a half miles south of Gettysburg."

**"Open House" Coming**

"For "do-it-yourselfers" L. U. Collins and Son can furnish layouts and field guidance along with the best of materials.

As part of the plans for observance of the firm's 75th anniversary this year, an announcement will be made soon of plans for an "open house" at the firm's showroom along the Littlestown Rd. The combination showroom, parts department and wrehouse shop was opened six years ago as part of the firm's steady expansion program.

Repair, supply and service work are other L. U. Collins and Son specialties.

## NEW ROLE FOR LLOYD BRIDGES IN TV DRAMA

By CYNTHIA LOWRY
AP TV-Radio Writer

NEW YORK (AP) — Lloyd Bridges, the TV actor who does much of his performing under water, will take a brief vacation from the briny to appear as the hero of a drama set in a steel town.

Bridges, star of the very successful "Sea Hunt" series, will play in a CBS special adaptation of Marcia Davenport's novel, "Valley of Decision" on March 20.

He is a good-looking, laconic man who confesses that he finds acting in a land-locked drama set in the late 19th century a pleasant change from playing a skin-diving adventurer.

**Wasn't Diver Before**

"In a 30 minute drama," he said, "there's not much time to develop character. Action is the main thing."

In addition, the very nature of the series sometimes make his waterlogged chores rather confusing. Some of the scenes are shot on land, others out in the ocean. Sometimes, when the crew is shooting at sea, they will save time and money by taking scenes for as many as four future episodes in a day's outing.

Bridges knew how to swim, but had never been a skindiver until he was chosen for the lead in "Sea Hunt."

**Art Carney Tonight**

Candidates for George De Witt's spot on CBS' "Be Our Guest" include Johnny Carson, Keefe Brasselle, Peter Lawford and June Powell. De Witt asked programming vice president Mike Dann to be relieved of his chores as soon as possible—a curious request in view of the show's steady growth of popularity.

ABC's new "Music for a Spring Night" series, which kicked off Wednesday night, is a tuneful, tasteful and altogether pleasant show—just music and nice music, at that.

Recommended tonight: Art Carney Show, NBC, 8:30-9:30 Eastern Standard Time — "The Best of Anything," satiric revue with Betty Garrett and Roddy McDowell.

## State's Plowing Contest August 10

HARRISBURG (AP)—The state plowing contest and conservation field day will be held Aug. 10 at the Frank Rice farm five miles west of Chambersburg.

Cooperating in staging of the events will be the Franklin County Soil Conservation District, Chambersburg Chamber of Commerce, Agricultural Extension Service, Soil Conservation Service, Agricultural Conservation and Stabilization Committee and Farm Machinery Delaers.

County plowing contests will be held throughout the summer with regional contests planned if needed. Both level land and contour events are scheduled for the state contest.

The national plowing contest will be held this year in South Dakota.

## PREDICTS BIG VOTE FOR DICK

By RELMAN MORIN

CONCORD, N.H. (AP) — Gov. Wesley Powell of New Hampshire predicted today Vice President Richard M. Nixon will roll up a bigger preferential vote in the state's primary election next week than President Eisenhower received in the 1956 election.

New Hampshire Republicans cast 56,464 votes for Eisenhower in the "beauty contest" section of the ballot in the last presidential primary.

There seems to be only lukewarm interest around the state in Tuesday's election.

On the Republican side, much of it evaporated when New York's Gov. Nelson A. Rockefeller did not come in to challenge Nixon.

## BRAINS RANKED ABOVE BEAUTY BY EXECUTIVE

By DOROTHY ROE
Associated Press Women's Editor

What kind of girl should an ambitious young business man marry?

"A smart one," says Cameron Hawley, novelist and world traveler, whose books usually are set in a background of big business. "Beauty is secondary. Today's young executives consider the intellectual wife a status symbol."

The era of the beautiful but dumb wife, who used to be the ideal of the nation's tycoons, is a thing of the past, says Hawley, author of "Executive Suite," "Cash McCall" and the just-published "The Lincoln Lords."

**Changing Concept**

"There is a changing concept of the executive wife," he explains. "In research for my latest book I talked to corporation executives, business men and college boys all over the country, as well as to the wives of many of them. I got a new picture of the kind of woman today's young men are seeking.

"I remember spending several days at a Midwestern university, where I got acquainted with a number of the students. These boys were dead serious about analyzing the kind of girl who would help them get ahead in business.

"One boy came to me and said, 'I'm crazy about a girl here. She's the only one I've ever loved. But I'm set on a corporation career, and she isn't really very bright. Will she be a handicap?' "

**Intelligent Conversationalist**

Corporation heads choosing new executives consider the wife an important part of the picture, says Hawley. But today the interest is not in whether the wife can throw a big party, but whether she can carry on an intelligent discussion.

The generation of the big business man who married a much-younger second wife after he achieved success also is past, says Hawley. Today boys and girls are marrying young and working together for the husband's success.

"The young executives who are coming to the top now are the ones that married during World War II, went back to school after the war, raised families while working for a degree, and dug in to make up for their lost years of education," he says.

Kenneth K. Bechtel of San Francisco was the first man who had been a Boy Scout to become National President.

# IRS "Conscience Fund" Receives $10,000 Yearly

By FRANK CORMIER

WASHINGTON (AP) — The Internal Revenue Service said today errant taxpayers who make anonymous contributions to the agency's "conscience fund" will be credited with the payments if tax agents ever catch up with them.

In response to an inquiry, officials said evidence of every payment to the fund is carefully preserved for this purpose.

Conscience fund is the informal name given to an IRS account which receives contributions from taxpayers who have cheated Uncle Sam and want to settle their debt without revealing their identity.

**$10,000 A Year**

The fund collects about $10,000 a year. Recent payments have ranged from 10 cents to $2,000.

One man wrote that he couldn't sleep because of his tax evasion and was sending in $300. He added this postscript: "If I still can't sleep, I will send more later."

Perhaps the strangest of all conscience fund cases involved a retired New England business man. He sent in five new $1,000 bills and was quickly traced through the serial numbers.

**Came As Immigrant**

When agents called on him, he reported that he came to the United States as an immigrant, built up a prosperous business and felt the country had been so good to him that he ought to make a contribution just in case he had once made an unwitting error in his taxes.

Agents went over his books and found that Uncle Sam owed the man $11,000. So he got a treasury check for $16,000, which included the return of his anonymous payment.

Officials said no effort is made to trace most contributions. However, action is taken if the amount is substantial and if enough leads are provided.

## Take Pumps From Abandoned Mines

POTTSVILLE, Pa. (AP) — Two coal companies are free to remove equipment and pumps from two shutdown anthracite mines in Coaldale.

Judge James J. Curran of Schuylkill County court Wednesday dissolved a preliminary injunction filed Saturday by five miners against the Coaldale Mining Co. and the Lehigh Coal and Navigation Co.

Some 1,200 miners were idled Monday when the mines closed.

The plaintiffs, seeking to keep the mines working, said removal of equipment and consequent flooding of the mines would cause them loss of employment.

The companies said the mines were unprofitable. The injunction was dissolved by consent of both sides' attorneys.

# PENNA. YOUTH PROGRAMS WIN JUDGE'S PRAISE

By BILL GIBSON

HARRISBURG (AP)—"Pennsylvania shows deep concern for its children," says a noted authority on juveniles. "You are better off in Pennsylvania than you realize."

"Many of the programs I have found here may seem run-of-the-mill to you but, believe me, they are unique," said Mrs. C. Kohler, New York, consultant to the Ford Foundation and the National Institute of Mental Health.

Mrs. Kohler, a San Francisco Juvenile Court judge for 17 years, commented on Pennsylvania's youth program Thursday at a one-day meeting of the Governor's Coordinating Committee for the 1960 White House Conference on Children and Youth.

**Attendance Cut**

Although more than 1,500 delegates were registered for the state meeting, heavy snow and bad weather across the Commonwealth cut the number attending in half. The delegates discussed recommendations for a 10 - year plan to be presented at the natio meeting in Washington March 27-April 2.

"I have been traveling around the world for the last two years o gather ideas for the treatment of juvenile delinquency," said Mrs. Kohler. "In some places, I have found the same old record being played by the same old people."

**Cites Forestry Camps**

But she said Pennsylvania has started some new programs and has a forward attitude toward youth problems.

For instance, Mrs. Kohler said, the idea of developing forestry camps for the rehabilitation of delinquent youths is good.

Mrs. Kohler said there was a great deal of interest among employers and union officials in using vocational training to aid rehabilitaton. She said there was a need for a variety of methods.

"What we too often do is throw them (delinquents) into overcrowded training schools and expect a cure," she said.

**Spending Not Enough**

A huge program which just spends large amounts of money is not necessarily going to solve the problems of youth, the judge told the delegates.

"A program with imagination, creativity, daring and judgement is more likely to fill the needs of children than a mammoth program," she said.

The delegates were told to avoid defeatism and explore new ways for helping children.

Mrs. Isabella Jones, associate director of the White House Conference, said that 50 years of ever-accelerating change in social political and technological fields have caused steady fading and blurring of traditional patterns of family life.

"We cannot, in reason, hope that (the next White House Conference in) 1970 will see an earthly paradise in which there are only happy children in happy families, where no potential is lost, no capacity wasted," she said.

"But we may hope that 1970 will see family life strengthened by a nationwide resurgence of acceptance of a responsibility by parents, teachers and all other citizens."

# DISTURBANCE ENDS SEARCH

Gary E. Becker, 21, Abbottstown R. 1, at a hearing before Justice of the Peace William Y. Naill Jr., Hanover, Wednesday, signified his intention to plea guilty in York County Court to a charge of leaving the scene of an accident without revealing his identity.

Becker, Robert L. Topper, 20, Hanover, and Joseph Balek, 21, East Berlin R. 1, were arrested on a warrant issued by Justice of the Peace Naill and were charged with disorderly conduct following a disturbance in Hanover.

Police said they were searching for Becker on the charge of failing to stop at the scene of an accident when the disturbance occurred.

All three were sentenced to 30 days in the York County jail in default of $10 fine and costs on the disorderly conduct charges.

The accident occurred, police said, when the Becker vehicle was in collision with a car driven by Mrs. Rita A. Miller, Hanover, Tuesday night. Both vehicles were traveling west on Poplar St. and the Miller automobile was struck in an attempted right turn into Spruce St., police said.

PARIS (AP)—France is airlifting about 800 political refugees to island vacation spots to nip in the bud any hostility toward Soviet Premier Nikita Khrushchev when he visits Paris later this month. Ten planes began the operation today. The first group totaled 74.

The refugees, mostly from Eastern Europe, will stay in hotels in Corsica and other islands for nearly a month. The French government will pick up the bill, provide daily allowances, and take steps so their jobs aren't lost.

# OBJECTS TO P.O. JOBS FOR TWO GOP WOMEN

WASHINGTON (AP) — Rep. Kathryn E. Granahan (D-Pa) says Postmaster Gen. Arthur E. Summerfield may be called on to explain his appointments of two Pennsylvania Republican women to special Post Office Department positions.

Mrs. Granahan, a Democrat, Thursday called the appointments "pure political patronage in a national election year."

She said she would consult with members of the full House Post Office and Civil Service Committee on the advisability of calling in Summerfield to explain the appointments.

The appointments she objects to are those of Mrs. Mae Simpson, widow of Rep. Richard M. Simpson (R-Pa), and Mrs. Carroll D. Kearns, wife of Rep. Kerns (R-Pa).

The two were named to speak to women's organizations seeking information on the Post Office Department's drive on obscene material sent through the mails.

The pay scale of the two women was reported to be $50 per day for each day they work.

Asserting there are many women who are better acquainted with the mail situation and who would offer to serve without pay, Mrs. Granahan said:

"I am appalled that Postmaster Gen. Summerfield, while seeking a postal rate increase and fighting a small wage boost for rank and file post office workers would put these women on the payroll."

# FEAR 6,000 LOST LIVES IN EARTHQUAKE

By STEPHEN O. HUGHES

AGADIR, Morocco (AP) — Weary refugees streamed away from Agadir today as pestilence threatened to sweep the quake-shattered city.

Amid the stench of death, rescue workers continued searching for survivors who might be trapped in the ruins.

The Moroccan government announced that 2,964 dead had been buried in graves hastily dug in the rubble of the Atlantic resort. But that figure did not include uncounted numbers of graves filled during the confused hours following the two earthquakes and a tidal wave Monday night.

Moroccan officials feared that 6,000 of the city's 40,000 residents may have died in the disaster, but it was apparent that the exact toll would never be known.

**3,200 Are Injured**

At least 3,200 persons were injured, 1,200 of them seriously. Some estimates of the injured ran to 5,000.

The government ordered Agadir evacuated in the face of the threat of pestilence. Several cases of typhoid fever already have been reported among the predominantly Moslem population.

The ruined city was sprayed with disinfectant.

Sixty - eight French and U.S. military planes kept up a round-the-clock airlift from a nearby French airbase, taking injured and unhurt survivors to other Moroccan cities and bringing in supplies. Up to Thursday night, more than 3,000 persons, most of them French or other foreigners, had been evacuated by air.

**Three Tent Cities**

Three tent cities were set up in the surrounding countryside for 10,000 other evacuees, mostly Moslems. Thousands more plodded away from the area on foot, or by horse or mule, seeking refuge elsewhere.

More help was on the way today. U.S. Air Force planes were bringing in 1,000 Moroccan troops. The French aircraft carrier Lafayette was carrying 1,500 French sailors from Casablanca. The U.S. cruiser Newport News, anchored in the bay, put its entire crew at the disposal of the Moroccan government.

# STATE TO SCAN VOTING FRAUD ALLEGATIONS

PHILADELPHIA (AP)—Anne X. Alpern, the state's attorney general, plans an investigation of alleged registration and voting frauds in Philadelphia.

First, she says, she will hear both sides of the story.

Miss Alpern met with Dist. Atty. Victor H. Blanc for one hour and 45 minutes Thursday.

"I have Mr. Blanc's side of the story," she told newsmen, "Now I want to hear the other side."

She said she would meet with those who have accused Blanc of failing to prosecute, then decide whether further investigation is warranted.

"I have arrived at no conclusions as to whether the district attorney was lax in prosecuting; nor will I until I hear the entire story," she said.

**Had Early Information**

Blanc's accusers have said he received information about voting conditions in the 5th and 10th Wards as long as 17 months ago. The district attorney, however, has said he did not have enough evidence, until recently, to begin prosecutions.

In recent days Blanc, a Democrat, has ordered the arrests of 13 election officials, one Democratic ward official and one Republican ward official.

They have been accused of such illegal practices as allowing the names of dead people to remain on the registration lists and allowing double voting, among other things.

Seven hundred names have been taken off the registration lists since The Bulletin began publishi stories about the alleged frauds.

# 5 Toll Collectors Held For Robbing Turnpike

HARRISBURG (AP)—State police say five toll collectors used an elaborate scheme to pocket an estimated $1,800 in tolls at two interchanges of the western end of the Pennsylvania Turnpike.

State Police Cpl. Joseph Sheranko outlined the method Thursday after the five were formally charged with fraudulent conversion and conspiracy.

He said a rubber mat was used at the Beaver Valley Interchange to depress a treadle which automatically counts vehicles passing over it.

**How Plan Worked**

One of the men would drive his car through the turnpike entrance at Gateway, on the Ohio line, and forward the travel ticket to the Beaver Valley interchange. There, Sheranko said, the ticket was substituted for one turned in by a driver from some distance eastern point. The collector would deposit 15 cents, the cost of the trip from Gateway to Beaver Valley, and pocket the remainder, according to the policeman.

The total charge for an auto traveling from one end of the pike to the other is $3.95.

However, the Turnpike Commission said many of the tickets involved in the alleged scheme were for trucks which pay tolls up to $3.60 (for a rarely used 100,000-pound vehicle; most trucks pay about 4½ cents a mile).

**Four Are Fired**

Four of the collectors were fired Thursday. The fifth man, who requested a hearing, was suspended. Their annual salaries ranged from $3,700 to $4,200.

The four entered guilty pleas Thursday before Alderman Edith Clark of Beaver Falls. They were Roy Glenn Rose, 30, Beaver Falls, and John Krawchick, 33, Wampum R. 2, both collectors at Beaver Valley Interchange, and John L. Piccinini, 42, Racine, and Kenneth L. Harn, 38, Ellwood City R. 2, collectors at Gateway.

Frank J. LaCava, 41, Ellwood City, did not enter a plea. He requested the hearing.

Turnpike Chairman Joseph J. Lawler said the investigation will continue, but he declined to say whether any other collectors are involved.

# STATE TAXES TOP ESTIMATE BY $900,000

HARRISBURG (AP)—State income from taxes for the nine months ending Feb. 29 was $900,000 above estimates because of unexpectedly high inheritance tax collections.

Inheritance taxes for the period were $40,600,000, up 30 per cent or $9,100,000 more than estimates, David H. Kurtzman, secretary of administration, reported Thursday.

Sales taxes were nearly 3 per cent below estimates over the same span, largely because of the lengthy steel strike.

**Some Above, Some Below**

Kurtzman said, however, sales tax collections of $4,450,000 for February were about two million dollars more than estimates for the month. The February collections reflected delayed receipts from Christmas sales.

Kurtzman said the state may offset the sales tax losses by June.

Receipts for the nine-month period showed these other revenue collections in excess of estimates: cigarette taxes, $400,000; malt beverages, $300,000; realty transfer, $1,300,000; nontax collections, $700,000.

Revenues below estimates were reflected in these categories, in addition to sales taxes: corporate net income tax, $1,600,000; capital stock and franchise tax, $1,800,000; liquor 10 per cent tax, $400,000.

PUSAN, Korea (AP) — More bodies have been recovered from the rubble of a fire-razed chemical plant in Pusan, raising the toll of known dead in the disaster to 63.

All but four of the known dead were women. They were among about 300 workers caught on the plant's second floor when the fire broke out Wednesday.

## Man Dies After Shoveling Snow

WILMINGTON, Del. (AP) — J. E. (Jack) Mitchell, who began a long career with The Associated Press in 1923 as a Morse operator in Pennsylvania, died of a heart attack Thursday shortly after shoveling snow. He was 57.

Mitchell collapsed in a chair when he reentered his house after removing snow from the sidewalk. He was dead on arrival at a hospital.

Mitchell had been a maintenance man in the Philadelphia Bureau since 1945 and also had served as acting traffic bureau chief.

Born in Scranton, Pa., in 1902, Mitchell worked in the AP office at the Wilmington Morning News as a mechanic operator, and transmitted race results from various tracks before his transfer to Philadelphia.

Survivors include his widow.

The adding machine was invented in 1642.

# RED ISSUES WARNING IN AFGHANISTAN

KABUL, Afghanistan (AP)—Nikita Khrushchev warned Wednesday night that the Soviet Union cannot ignore "designs, intrigues and dangerous policies" directed against friendly neighbors. His target obviously was Western-allied Pakistan, currently embroiled in a bitter dispute with Afghanistan.

The Soviet Premier dropped the warning at a diplomatic reception ending the first day of his three-day visit to this neutralist nation on the Soviet Union's southern border.

Khrushchev did not elaborate on his statement, but there was no doubt he had in mind the quarrel between Afghanistan and Pakistan over four million Pathan tribesmen living in Pakistan.

The Pathans in Afghanistan, the country's largest single population group, consider the tribesmen in Pakistan their blood brothers. For years the Afghan government has argued that Pakistan should give them the right of self-determination. Pakistan has rejected the proposal, insisting that the tribesmen are part of its national population.

Khrushchev arrived at a time when both Radio Kabul and Radio Pakistan were firing their heaviest propaganda barrages over the dispute in years.

Afghan Premier Mohammad Daud also indirectly touched on the issue Wednesday night, asserting that "intrigues from a certain quarter" would not endanger Afghanistan or hinder its development.

Both Khrushchev and Daud declared that relations between their countries were based solidly on equality and mutual respect. Daud added that his government follows the same policy in dealing with all nations.

BRADENTON, Fla. (AP) — Manager Charlie Dresson of the Milwaukee Braves, pleased with the performance of Red Schoendienst in the early days of spring training, believes he will be able to use the veteran second baseman as a starter in most baseball games this year.

"Red gets the ball as good as he did before he got sick," Dressen said Wednesday after watching Schoendienst go through a long workout.

Schoendienst was out most of the 1959 season with tuberculosis.
